Dear Ms. Dingwall:

We are writing to let you know that the membership of the Nipissing University Faculty Association (NUFA) stands with the University of Manitoba Faculty Association (UMFA) in your efforts to negotiate fair compensation for professors, instructors, and librarians and bring about an end to political interference in the collective bargaining process. Your fight is the fight of us all.

The people of Manitoba deserve accessible high-quality education and that can only be achieved by investing in universities and supporting faculty, instructors, and librarians in doing their important work. The strong support UMFA has received from the U of M student body shows that they recognize this and we hope the administration will soon demonstrate that they do as well.

In solidarity,

A handwritten signature in black ink, appearing to read "Sarah Winters", is written over a light blue horizontal line.

Sarah Winters  
President
